SUMMER COURSES

GENERAL ANNOUNCEMENT

1950 SUMMER COURSES

ONTARIO DEPARTMENT OF EDUCATION

FOREWORD
FROM THE
MINISTER

Significant changes are taking place in the educational system of Ontario this year. Experiments in organization will be undertaken, new courses will be developed and tested, and new readers and text-books introduced. A greater share of responsibility for the reorganization, for the planning of new courses, and for the choice of books and materials is devolving upon the schools and their staffs.

Summer courses have always played a useful part in our system of education, but this year, with all the impending changes, they are of special importance. Many of the courses offered at the summer schools will be specifically related to the new developments. I hope, therefore, that a large number of teachers will take advantage of the opportunity offered them, to prepare themselves to meet their new responsibilities and the problems which must inevitably arise when such a wide-spread change is undertaken.

Dana Porter

Minister of Education.

GENERAL INFORMATION

ADMISSIONS

1. The admission requirements for each course are outlined on the following pages. Teachers-in-training at the Provincial Normal Schools and the Ontario College of Education are eligible for admission to any of the courses for which they are otherwise qualified.

2. Application forms for admission to the courses should be filled in and addressed to the Deputy Minister, Department of Education, Parliament Buildings, Toronto.

3. For the satisfactory organization of the courses, applications should reach the Department not later than **May 31st.** No assurance can be given that applications received later than this date will be considered. Applicants are advised that Letters of Admission may not be mailed from the Department before June 7th.

4. If, as a result of the small number of applicants, the Department should decide not to provide a course, applicants for admission thereto will be duly notified.

TRANSPORTATION

Reduced fares will be granted by the Canadian Passenger Association for teachers and dependent members of their families when accompanying them, from stations in Canada. The teacher should purchase a one-way ticket at full fare from his home station to the place of the Summer Course and obtain from the ticket agent a standard convention certificate. Upon presentation of this certificate, signed by the principal of the course, a ticket for the return journey may be purchased at one-half of the regular one-way fare. These reduced rates may be obtained during the three days before the opening of the course and not more than three days after the close of the course, not counting Sundays. Return tickets are valid for 30 days and will permit of stop-overs, but they must be purchased within three days of the close of the course.

REGISTRATION

1. All applicants shall present themselves for registration not later than noon on the first day of the session at the places at which the courses are to be given.

2. In the regular course, the classes will be organized and the work will begin not later than the morning of the second day.

3. In the refresher courses, the work will begin during the morning of the first day.

ATTENDANCE

Since the courses are brief and the work concentrated, regular attendance is required. This applies also to the refresher courses, where there is no provision for admitting teachers who are not prepared to attend regularly for the full period of the course.

With the exception of the Refresher Courses, classes are not held on Saturdays.

A teacher who is attending any other course is not permitted to enrol for a Departmental Summer Course. Since each Summer Course is a complete unit designed to occupy the full attention of those attending, it is not possible for a teacher to be admitted to more than one course during the summer.

FEES

Each teacher admitted to a regular course, with the exception of ex-service men and women, will be required to pay a fee of $10.00. The fee for each refresher course is $5.00. Fees will be payable at the opening of the course to the principal in charge.

PREPARATION FOR SUMMER COURSES

In the Summer Courses, which are necessarily brief, the subjects cannot be treated in detail. Candidates are, accordingly, expected to make as much preparation as possible throughout the school year.

Art and Crafts

ELEMENTARY

To this course may be admitted an applicant who holds a Second Class or more advanced teaching certificate.
To enrol in this course no previous special training in art or crafts is necessary.

The course is offered so that teachers may have a broad survey of art and crafts activities in relation to general education. It will aid prospective specialists in art and crafts work to discover their particular abilities and in the future to select courses leading to the advanced certificates. Rural teachers or those seeking a refresher course will find this course particularly valuable. Particular emphasis will be placed upon the proposed changes in the Ontario educational system with respect to the grouping of grades.

Those enrolled will have a wide choice of the activities offered and thus the individual needs of the teachers, both personal and geographical, will receive attention.

Students will complete several examples of art and crafts work while the integration of this work with other areas of school activity will be stressed. Discussions of contemporary thought in philosophy, psychology and pedagogy connected with art and crafts will be held for those who are interested. Outstanding specialists in various fields of design will lecture on their particular fields, while the core work of the course will be guided by teachers who have had outstanding success in teaching in the ordinary classroom situation.

A teacher who, in the opinion of the staff of the summer course, shows an intelligent insight into the use of art and crafts in general education and a reasonable technical skill in the manual work completed in the course will be granted an Interim Elementary Art and Crafts Certificate.

For the purposes of the regulations of the Department of Education, this certificate is considered the equivalent of the Interim Elementary Art Certificate, and is accepted as part of the requirement under Circular 614, for a permanent teaching certificate.

Teachers will continue to explore the various media and techniques with which they dealt in the elementary course. Some specialization in both art and crafts will be expected and artists and craftsmen will assist teachers to achieve greater proficiency in their chosen work. Those enrolled in this course are advised to attend a series of lectures dealing either with recent developments related to art teaching or with trends connected with design.

For the purposes of the regulations of the Department of Education, the Interim Intermediate Art and Crafts Certificate is considered the equivalent of the Interim Intermediate Art Certificate, and is accepted for the purpose of Circular 614.

SUPERVISOR'S

To this course may be admitted an applicant who holds the Intermediate Art and Crafts Certificate or the Intermediate Art Certificate, or who submits evidence of the successful completion of an equivalent course.

Candidates for the Supervisor's Certificate in Art and Crafts will be required to demonstrate an intelligent insight into the use of art and crafts in general education, a reasonable technical skill in the manual work completed in the course, ability in two-dimensional and three-dimensional work, and a knowledge of historical trends in design.

Audio-Visual Aids

To this course may be admitted a teacher who holds a Second Class or more advanced teaching certificate.

The course will be held at Toronto, from July 3rd to August 4th inclusive.

The aim of this course is to assist teachers in the selection and utilization of all types of Audio-Visual aids. Practice in the evaluation of the various kinds of Audio-Visual instructional material will be given. It is planned to give considerable prominence to the workshop technique, with units in filmstrips, film evaluation, radio and recordings, lesson plan preparation and non-projected visual aids. Training in the operation of various types of projectors will be provided.

Those enrolled will have an opportunity to become thoroughly familiar with the films and slides available from the Visual Education Branch, and should acquire a good appreciation of recent developments and trends in the utilization of Audio-Visual Aids.
